

Organize 360™
Go full circle and become a Self-Organizing Engineer

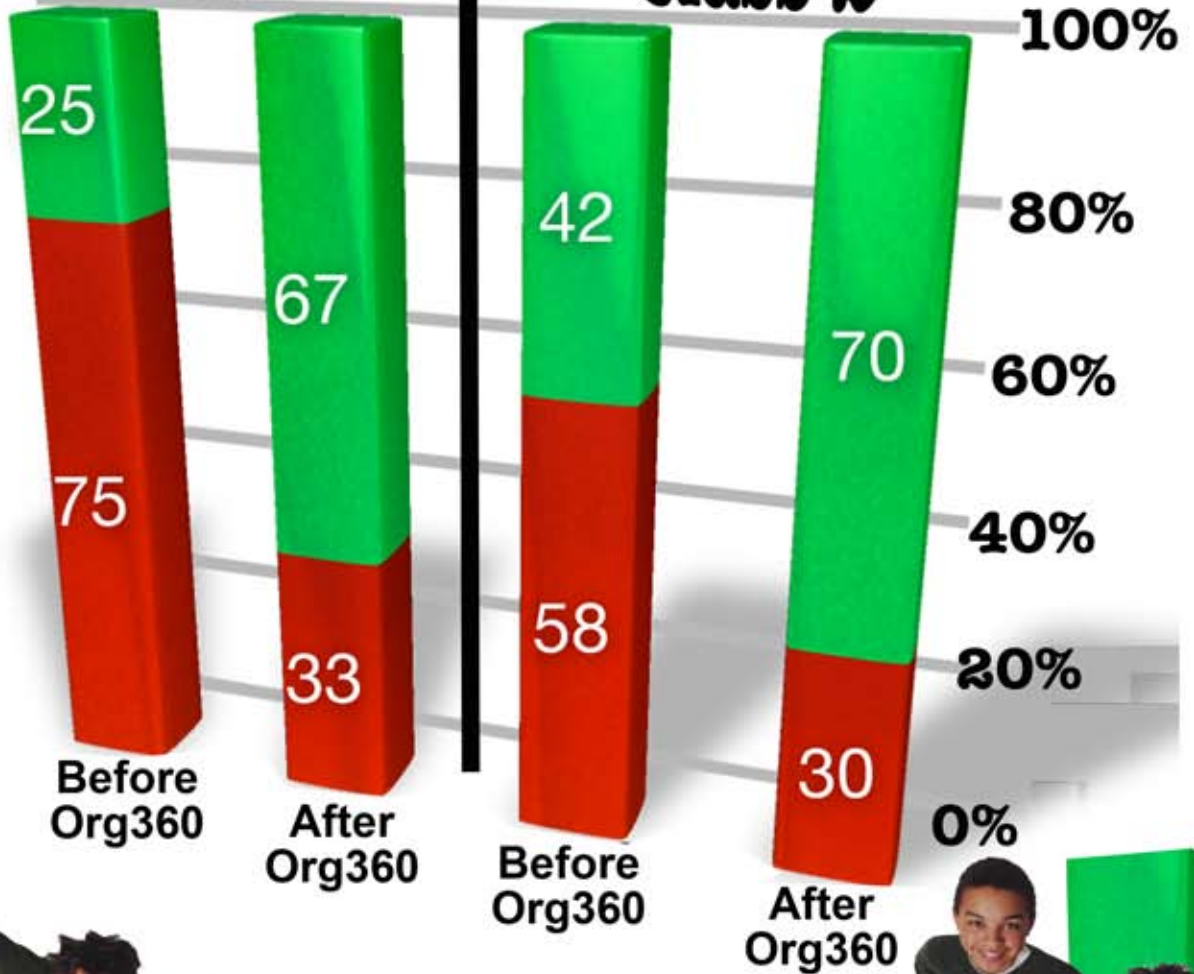

Survey Results

6th grade Maria L. Baldwin School
 Cambridge, Ma

Study completed January 2008*

Class 1

Class 2

I am very organized
I am not so organized

25									
26	1. The teachers received 1 1/2 hour training as if they were students first								
27	2. The students were taught in a double period class one after the other								
28	3. There was a before survey administered-asking students to rank themselves								
29	4. The same survey was readministered 2 Weeks later-same questions								
30	5. Students were also asked to articulate what it means to be organized								
31	6. The student comments have been compiled separately from the above %								
32	7. From the shift observed(see over) we achieved a shift to 70% organized								
33	8. We were able to help a larger # of stu with more severe organizing problems								
34	9. Most students were able to articulate the 8 step engineering process used								
35									
36	Some sample student comments								
37	Before								
38	I stuff things in my desk.								
39	I just leave everything everywhere.								
40	I sort of put stuff in my bag-I need to get a bigger bag.								
41	I don't really have a system.								
42	After								
43	I use the binder and don't stuff things in my desk and I don't loose things								
44	I organize with the organizing thingy-the system-I put things where they go								
45	Im doing good with the machine. I just need to put more stuff in it								
46	Im so organized when I open my binder it takes me not even 2sec to find what I need								
47	I keep my work in the new folders we got-everything I need to put in goes in								
48	I use the folders, just take out any subject so now I am doing good-I love it
